YUVRAJ SINGH

| Email | LinkedIn | Github | Codolio | +91-9695776033 |

OBJECTIVE

IT undergraduate specializing in backend development and AI/ML, with hands-on experience building LangChain, LangGraph, and RAG-based applications. Demonstrated problem-solving ability with 1600+ competitive programming solutions and a global rank of 86 among 34,000 participants on CodeChef. Graduating June 2026, actively seeking SDE or AI/ML engineering roles.

SKILLS

Technical Skills C/C++**,** Python, SQL, JavaScript.
Web Technologies: JavaScript, NodeJS, Express.js, MongoDB, HTML, CSS3.
Core Subjects: Data Structure and Algorithms, DBMS, Object Oriented Programming
AI & ML : Machine Learning, Langchain, Langgraph, RAG,streamlit .

EDUCATION

Pranveer Singh Institute of Technology **2022 – 2026**
Bachelor of Technology, Information Technology *(Percentage: 75.58%)* Kanpur, Uttar Pradesh

Sunbeam School **2021 – 2022**
Higher Secondary Education *(Percentage: 68.6%)* Ballia, Uttar Pradesh

Sunbeam School **2019 – 2020**
Secondary Education *(Percentage: 78 %)* Ballia, Uttar Pradesh

PROJECTS

SMART ATTENDANCE SYSTEM USING FACE RECOGNITION
Tech Stack: Python, OpenCV, Python, Machine Learning, SQL

- Built a smart attendance system using facial recognition, improving tracking accuracy by 30% and reducing manual errors.
- Ensured cross-browser compatibility and optimized performance for seamless playback on both desktop and mobile devices.
- Created an intuitive web interface for real-time attendance monitoring and secure access, increasing user engagement by 40%.

AI Chatbot with RAG & Tool-Augmented LLMs
Tech Stack: Python, LangChain, LangGraph, RAG, Streamlit, DuckDuckGo Tool, REST APIs, SQLLite3

- Built an AI chatbot using LangChain, LangGraph, and RAG supporting contextual conversations with persistent chat memory.
- Integrated tool-based reasoning including Google/DuckDuckGo search and real-time stock price APIs.
- Developed an interactive Streamlit frontend with secure API key handling and session/thread-based state management.

LIBRARY MANAGEMENT SYSTEM
Tech Stack: / Node.js, Express.js, MongoDB, EJS, React.js

- Developed a Library Management System with book issuance, returns, and real-time availability tracking.
- Created a responsive UI using EJS and Bootstrap for smooth user interaction.
- Implemented user detail storage and automated fine calculation for overdue returns.

CERTIFICATIONS

- Salesforce Certified Agentforce Specialist (Salesforce)
- SQL complete Bootcamp Form Basics to advanced (UDEMY).
- The C++ 20 Masterclass : From Fundamentals to Advanced (UDEMY).
- Master Node.js: Udemy (UDEMY).

ACHIEVEMENTS

- Secured a globalrank of 86 in Starter153 among 34,000 participants, reflecting strong competitive skills.
- Solved more than **1600+ problems** across multiple online platforms like **LeetCode, GeeksforGeeks, CodeChef.**
- In Top 11.39% in LeetCode, Attained 3-star rating on CodeChef.
